# Purpose

Advancing the well-being of the ASU community is a full team effort. We are developing a Community of Care, where we recognize that our actions impact the lives and health of others.

We are taking proactive measures to help reduce the spread of COVID and promote well-being across the community.

Health Check

Let's Take Care of Each Other

Keeping our community healthy is a team effort

Our actions impact the lives and health of others, and being mindful of our health during this pandemic will help ensure the safety of others. This new tool helps all of us become more aware of our own health, ensure we are monitoring it. Through its use we are making a commitment to each other to stay healthy.

Because it is so important, it's required for everyone on campus

We are a large community and taking proactive steps to ensuring the overall health of each individual is vital to safely enabling the on campus learning experience. If you are not working or coming to campus, you will still need to "check-in" via one of the methods outlined below.

Your privacy is our priority

Data collected via the health check will be stored and accessed in accordance with ASU Privacy Policy and Data Handling Standards.

Easy As
1-2-3

1. Complete daily health checks.

Taking care of ourselves and each other means submitting your health check every day.

2. Share your COVID-19 test results with ASU.

If you test positive for COVID-19, you can share those results with ASU so we can follow-up with you to provide support and send an alert to those you may have been in contact with.

3. Share your on-campus location for exposure management.

This can help ASU determine if you have crossed paths while on-campus with someone who ASU has been informed was diagnosed with COVID-19.

Health Check
How to's

1. ASU Mobile App: Sun Devils will be able to complete the health check and leverage additional health resources via the app, with the benefit of keeping your data secure.

2. healthcheck.asu.edu: community members can also "check-in" each day through our web portal.

3. ASU Experience Center: Call 844-448-0031 to complete your health check before you go to campus each day.
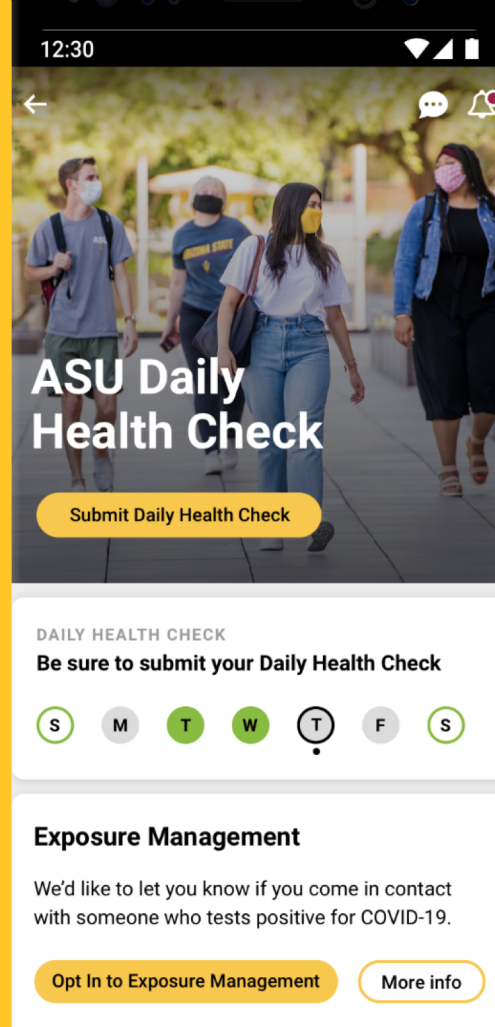

Health Check
Training

The UTO Training team has developed a course for the ASU community to utilize while learning the health check ropes.

We ask our UTO family to take the course and provide any feedback prior to launching university-wide.

Estimated launch this week.

Health Check
Non-Completion

The daily health check is a critical strategy for keeping our community healthy and is a requirement for employees every day.

You will receive reminders to submit your health check. You may enter your work schedule so the reminders come on the days that you are scheduled to work. Failing to complete the health check may result in loss of access to ASU systems.

Health Check
Resource Center

There is a breadth of information and support as we continue this journey together. If you have any additional questions, please reach out to your supervisor.
